 Portfolio

Professional Summary

Results-driven .NET Developer with 2+ years of experience developing ERP and business management applications using ASP.NET, C#, SQL Server, JavaScript, and Angular. Experienced in building scalable modules for HRMS, finance, production, purchase, and sales operations. Skilled in SQL optimization, API integration, dashboard development, workflow automation, and Agile-based development environments.

Backend

C#, Asp .NET, ASP.NET Core, ADO.NET, ASP.NET Core Web API, Entity Framework Core, RESTful APIs

Frontend

HTML5, CSS3, JavaScript, TypeScript, JQuery, Angular, Bootstrap

Database

SQL Server, MySQL, Stored Procedures, Query Optimization

Tools & Platforms

Git , GitHub , IIS , AWS , CI/CD , Azure

Professional Experience

08/2023 – present
Kolhapur, India

Software Engineer (.NET Developer)

Compserv Consultancy Pvt. Ltd. Kolhapur

- Developed and maintained ERP modules for Finance, HRMS, Production, Purchase, and Sales using ASP.NET, C#, VB.NET, and SQL Server.
- Optimized SQL queries and stored procedures, improving report generation and data retrieval performance by 35%.
- Built real-time dashboards and reporting features using ASP.NET, JavaScript, and SQL Server.
- Developed responsive frontend components using Angular, JavaScript, jQuery, Bootstrap, HTML5, and CSS3.
- Automated business workflows using C# and SQL to improve operational efficiency.
- Integrated third-party REST APIs and payment workflows into ERP applications.
- Gathered client requirements and implemented customized ERP workflows based on business needs.
- Collaborated in Agile teams for development, debugging, testing, and code reviews.
- Improved application scalability, performance, and system reliability.

12/2021 – 03/2022
Kolhapur, India

Mobile Development | Intern

Active Software, Kolhapur

- Assisted in developing a Complaint Management Android application using Java.
- Designed and implemented UI components and integrated REST APIs for data communication.
- Managed and optimized SQL Server database queries for better performance.
- Participated in testing, debugging, and refining application features.
- Gained hands-on experience with Android SDK, application lifecycle, and mobile UI/UX principles.

Professional Projects

ERP System Development for Foundry & Manufacturing

Tech Stack: ASP.NET, C#, SQL Server, JavaScript

- Designed, developed, and maintained a **comprehensive ERP system** supporting **Foundry, Machine Shop, Finance, Production, Purchase, and Sales modules**.
- Implemented **project-based tracking**, enabling efficient monitoring of **financial transactions, sales, and operational workflows**.
- Created an **interactive dashboard** with **real-time data visualization, animations, and dynamic graphs**, enhancing decision-making processes.
- Integrated **financial tracking mechanisms** to assess **project revenue, expenses, and profitability** with improved accuracy.
- Optimized database performance, ensuring **faster query execution and seamless data retrieval**.

HRMS Leave Management System

Tech Stack: ASP.NET, C#, SQL Server, JavaScript

- **Designed and developed** a comprehensive **Leave Management System** to streamline **leave requests, approvals, and balance tracking**.
- **Integrated** the system with **payroll, attendance tracking, and approval workflows**, enhancing HR efficiency.
- **Automated leave balance calculations** and seamlessly linked them with **payroll processing** for accurate salary adjustments.
- **Implemented a role-based approval system**, ensuring a structured and efficient leave approval process for employees and managers.
- **Optimized HR workflows** by synchronizing **attendance records with the HRMS platform**, improving decision-making and compliance.

Academic Projects

K3K Dance Academy – Web & Windows Application

Tech Stack: ASP.NET Web Forms (C#), ADO.NET, SQL Server, WinForms, REST APIs

- Developed a dual-platform application (web + desktop) for managing student registrations, class schedules, event details, and payment processing.
- Web application built using ASP.NET Web Forms with ADO.NET for data access, HTML/CSS/JavaScript for frontend.
- Desktop Admin Module built using WinForms (C#) to support offline operations and real-time sync with the web app via REST APIs.

Education

2020 – 2022 Kolhapur, India	Master of Computer Application <i>Chhatrapati Shahu Institute of Business Education and Research, Kolhapur</i> Percentage - 73.33
2017 – 2020 Kolhapur, India	Bachelor's of Computer Application <i>Shivaji University, Kolhapur</i> Percentage - 72.72

Skills

Team Leader, Good Communication, Time Management, Learning Attitude, Problem-solving
